

TAP SMART

CNC Electric Tapping Machine

- Fast And Easy Operation.
- Save 90% cost of tapping.
- 100% Gauge assurance.
- Eliminates Tap breakage.
- Less consumption of electricity.
- Operate on single phase.
- Depth control facility.
- Tapping cost per hole negligible
- Tapped hole counting facility.
- Torque adjustment.

Control panel:

For smart selection of tap size, torque, speed, depth etc, with touch screen display.

Handle Grip:
Forward-Reverse buttons mounted on grip ensure fast operation.

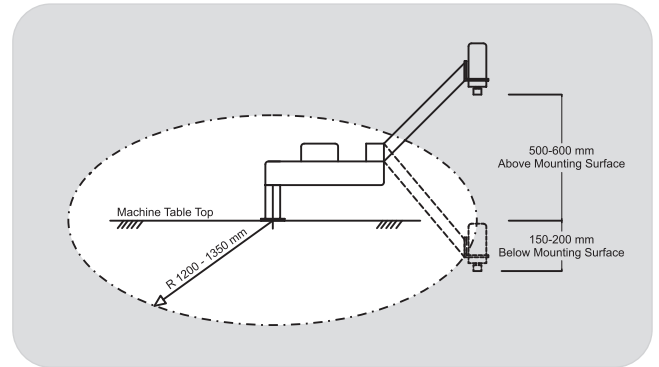

SV
Standard Arm
Vertical Head
Machine
(Order Code 'SV')

SU
Standard Arm
Universal Head
Machine
(Order Code 'SU')

Product By: RAVISON'S CORPORATION. All Models have module "SV" & "SU" available.

Model	Capacity	Working Radius Std Arm	Speed	Power	Tap collets
TAP SMART - 12	M3-M12	1200mm	0-600Rpm	800W	M3,4,5,6,8,10,12
TAP SMART - 16	M3-M16	1200mm	0-300Rpm	800W	M3,4,5,6,8,10,12,14,16
TAP SMART - 30	M6-M30	1350mm	0-150Rpm	1200W	M6,8,10,12,14,16,20,22,24,30
TAP SMART - 36	M6-M36	1350mm	0-100Rpm	1200 & 2400W	M6,8,10,12,14,16,20,22,24,30,33,36

Optional Accessories

Working Table :
900x600x700. Designed with heavy duty box section frame and 12mm thick machined top surface. Powder coated with arrangement of castor mounting.

Quick Change Safety Tap Holder :
Torque slip clutch collets ensure controlled torque while tapping and avoid tap breakage.

Magnetic Base :
250x100x190mm
Lifting capacity 300/500/1000Kg
For easy mounting of machine on large plates and heavy jobs.
